

ACTION IN THE MUNICIPALITIES OF YUGRA

Beloyarsky District

One of the priorities of the administration of Beloyarsk District is the implementation of environmental measures aimed at improvement of the system of environmental education, raise of ecological culture level of the population, as well as education and promotion respect for the nature among the younger generation.

For this purpose, the municipality conducts annually environmental protection and environmental education events devoted to the International Ecological Action "To Save and To Preserve".

Plan of the major events in Beloyarsky District dedicated to the XIV-th International Ecological Action "To Save and To Preserve" is approved by the Decree of Beloyarsky District Administration of April 5, 2016 under No. 346.

The solemn opening ceremony of the events dedicated to the IEA "To Save and To Preserve" was held at the Palace of Children (Youth) Creativity in the Beloyarsky town. About 175 people attended the opening ceremony. On the territory of the municipal district within the period of the International Ecological Action "To Save and To Preserve", it was conducted 72 events, 57 of which were environmental education events (conferences, forums, environmental marathons, seminars, round table discussions, environmental lessons, exhibitions, performances, festivals, quizzes, holidays, etc.), 15 events were of environmental protection orientation (labor eco-events, Saturday volunteer cleanup events on landscaping and gardening, planting trees, alleys of graduates, etc.).

For the sixth year in a row, the city conducts the open contest for fishing, "Fisherman Day!". Contests were organized and conducted at the nature conservation area - the lake "Svetloye".

The main goal of the contest is a formation and education of ecological culture of the population (Fishermen), as well as promotion of healthy lifestyle and active leisure in nature, introduction to amateur fishing by lawful means.

The contestants of Beloyarsky District participated in a number of events of all-Russian level.

The Children All-Russian Literary and Creativity Contest "The world of wilderness" within the framework of international campaign "March for Parks":

1. Rostislav Krasnov, 12 years old, 2nd place, the natural park "Numto", Beloyarsky town, Khanty-Mansiysk Autonomous District – Yugra;

2. Arina Akhunova, 16 years old, 3rd place, the natural park "Numto", Beloyarsky town, Khanty-Mansiysk Autonomous District – Yugra;

3. Liubov Bogdanchikova, 11 years old, 3rd place, the natural park "Numto", Beloyarsky town, Khanty-Mansiysk Autonomous District – Yugra;

4. Polina Chavina, 14 years old, 3rd place, the natural park "Numto", Beloyarsky town, Khanty-Mansiysk Autonomous District – Yugra;

Alexander Chibulaev, 10 years old, 3rd place, the natural park "Numto", Beloyarsky town, Khanty-Mansiysk Autonomous District – Yugra.

The total number of participants in the environmental protection and environmental education events was about 8,200 people, including children, teenagers, youth of about 4,620 people.

Beloyarsky information center "Kvadrat" covered the events in electronic and print media.

Number of publications in the print media - 6 publications, aired television programs - 7 releases.

Information on environmental protection and environmental education events are also available on the website of local governments in the Internet.

In 2016, among the special achievements of the municipality in the field of environmental protection can be attributed:

1) construction of two facilities for placing the solid municipal (household) waste:

- The landfill for disposal of solid waste in the settlement of Sorum of Beloyarsky District (date of municipal contract conclusion: May 28, 2015, commissioning of facilities - 4th quarter of 2016);

- The landfill for disposal of municipal solid waste in the village of Polnovat of Beloyarsky District (date of municipal contract conclusion: May 29, 2015, commissioning of facilities - 4th quarter of 2016);

2) development of design documentation for the project "Recultivation of the authorized landfill territory for municipal solid waste in the village of Polnovat of Beloyarsky District;

3) recognition of Beloyarsky District as a winner of the regional contest "The Best Environment-Oriented Municipality of Khanty-Mansiysk Autonomous District – Yugra" in the nomination " The Best Municipality - Environment-Oriented Municipal District" under results of the year 2015.

Berezovsky District

Within the framework of the International Ecological Action "To Save and To Preserve", the municipal district held the following environmental events: Saturday volunteer cleanup events on cleaning of settlements: streets, squares and parks, local areas; cleaning the territories of enterprises and organizations, water protection zones adjacent to the settlements of forests; planting trees, bushes, flowers in the gardens, parks, surrounding areas of enterprises and organizations, laying and designing the alleys of graduates; school youth groups works in all settlements during the summer months.

Environmental education events are not limited to the scope of the IEA "To Save and To Preserve" and are held throughout the year. The event was attended by children aged from 3 to 18 years old.

It was conducted the following environmental events: lessons, round table discussions, seminars, etc: "Preserve soil - Save life on the Earth!", "Water is life", "Drop and drop laid up will be the sea", "Love your land", "Migratory friends", "Birds of our forests", "Surrounding nature of our land", "Journey into the world of plants", "Our common home - the Earth", "We love our land", "By the footsteps of the animals", "The Earth is a teardrop on the cheek of the universe", creative game "Forest and its inhabitants", Environmental hour "Protect the forest against fire", Environmental hour of questions and answers "Let's protect Yugra forests".

The contest "Clean settlement" is held among the administrations of city and village settlements of the district each year. It is evaluated cleanliness of streets, parks, squares, house adjacent areas, availability and timely cleaning of garbage cans, cleanliness of rest places and water protection zones, etc.

It has become a good tradition twice a year, in spring and autumn, to devote some days for planting trees and bushes. The residents between the ages of 5 to 80 years old participate in such events. Everyone understands the importance and significance of such events. As a result, thousands of saplings of conifers and deciduous trees planted. Planting material is provided by forestry employees.

All enterprises and organizations of the District without exception are involved in the Saturday volunteer cleanup events.

Every year, the events of the International Ecological Action "To Save and To Preserve" are attended by more than 20% of the total population of the District. Already, on the 1st of July 2016, this figure was 21%.

For the second year in a row, there are difficulties with cleaning of the water protection zones of settlements in our District. This is due to high water levels in rivers during the spring - summer period.

The regional media (newspaper "Life of Yugra", author's TV channel "Berezovo", radio station "Igrim") covers all the environmental events held in the District.

Kogalym Town

Within the period of the Action from 12th to 5th of June 2016, it was held 731 environmental protection and environmental education events. Environmental protection events are held in the town throughout the year, by the town businesses and educational institutions, which significantly increase the development of environmental awareness and culture among the younger generation.

Many events within the Action have already become traditional. There is participation in the All-Russian Forest Planting Campaign, participation of the town delegation in the All-Russian Scientific-Practical Conference "Environmental education and enlightenment for sustainable development" with preparation of reports and presentations; environmental campaigns and Saturday volunteer cleanup events for cleaning and landscaping of school territories, where teachers and students involved; environmental lessons and excursions.

Within the framework of the International Ecological Action "To Save and To Preserve", it was conducted 373 Saturday volunteer cleanup events in Kogalym town.

It was conducted cleaning the town areas, town forests, including school and yard territories.

844 trees, 15 bushes and 27,238 flowers were planted in Kogalym town, in spite of the weather conditions in the area equivalent to the Far North. The area of the greened territory was 71,600 m².

8,604 people, including 2095 children, teenagers and young people, attended the events for planting trees and flowers.

Teams of town enterprises are regularly carried out Saturday volunteer cleanup events in the town, allocated forest areas and enterprise areas. There is a scheme of allocation of areas for

cleaning by the town enterprises and structural subdivisions of "LUKOIL - West Siberia" LLC. Sanitary cleaning of the town is carried out according to this scheme.

It is performed cleaning the territory for mass recreation of residents of the town, located in the southern part of the town border 2.5 km to the southwest of the apartment house at the address: Kogalym, Prospect Schmidta, 12, in the watershed of Inguyagun and Cyril-Vysyagun.

The total area of the cleaned territory covers 232 hectares. Volume of exported waste to the landfills was 864 m³.

It was conducted environmental education events: conferences, seminars, exhibitions, festivals, round table discussions and other events dedicated to the ecology and environmental protection issues. The main purpose is to promote environmental awareness and formation of ecological culture among the population, inform the public about the state of affairs in the field of environmental safety and environment condition, as well as education and training of the citizen able to think environmentally.

On May 12, the Day of Environmental Education in all educational institutions, it was carried out environmental protection and ecological education events on ecology and environmental protection issues in order to mainstream the environmental knowledge in all sciences and all fields of human activity, education of love, caring attitude towards the nature, formation of understanding the healthy lifestyles, development of creative abilities of schoolchildren and preschoolers. There were a variety of environmental events that were both educational and practical; exhibitions, conferences and children's art contest on the theme of nature conservation.

In order to identify, develop and support the talented children and formation of the environmental culture at younger generation in all educational institutions, it was conducted the environmental events within the framework of the 5th District-wide ecological marathon "My Yugra - My Planet". 700 environmental events were conducted, which were attended by all students of educational institutions, institutions for supplementary education and pupils of pre-school educational institutions, the parent community, experts of environmental protection services and public associations of the town, it was more than 11 000 people.

The MBU "Central Town Library" within the period from 21st of May to 4th of June organized the Environmental Exhibition "Colourful Planet", which presented the literature on the structure of the universe and our Earth, the phenomena of nature, flora and fauna, about the world that surrounds us. The 28 people attended the event. The Children's Library conducted the open-air summer event "A friendly little family with a book on the bench", where an exhibition of books was organized, the contents of which spoke about the environmental risks of our planet. It was reminded the rules of conduct in the forest, introduced to the Red Data Book, presented a slide presentation "Wonders of Nature". 16 people participated in the event.

The municipal institution "KDK "Art Holiday" conducted a quiz "Forest is the life" as a part of the school-leaving parties for children from pre-school educational institutions, in which 45 people participated. 40 people attended the event "Clean Town" on cleaning debris from the fountains and the surrounding area in the amusement park during the period from XVI-th of May up to May 29.

May 17-21, the schoolchildren in conjunction with the sponsored organizations and members of the volunteer club "DOBROvolets" and VPK "Vozrozhdeniye", municipal institution "MKC "Phoenix" took part in the event "Alleys of graduates" within the framework of the International Ecological Action "To Save and To Preserve". The guys planted 320 trees.

During the period of the XIV-th International Ecological Action "To Save and To Preserve", 302 environmental education events and 429 environmental protection events, which involved 16,613 people, including 9,413 children, teenagers, and young people, were conducted in the educational institutions, organizations of Kogalym town.

All town environmental events were widely covered by the local mass media. The television program "Evening News", information videos in relation to the main events of the Action went on the air, article in the local newspaper "Kogalym Vestnik" were printed, information and audios were announced on the radio station "Radio-Yugra". Information posted on the websites of educational institutions and websites of the Administration of Kogalym Town.

Kondinsky District

Within the framework of the XIV-th International Ecological Action "To Save and To Preserve", the institutions of education, culture and youth policy of the District carried out 665 cultural events, in which 17,728 people, including 14,828 children, teenagers, young people took part.

Traditionally, it was conducted informative and game programs, talks, quizzes, exhibitions of children's drawings, posters, Saturday volunteer cleanup events, creative workshops, as well as show of environmental videos based on the institutions within the framework of the Action. The cultural institutions hold the environmental events, conduct propaganda for conservation and enhancement of natural resources of our region throughout the year. Cleaning and landscaping of urban and rural settlements in the District is conducted several times a year, it is organized Saturday volunteer cleanup events, it is involved the young eco-volunteer teams.

In the District Palace of Culture "Konda" in the settlement of Mezhdurechensky within the framework of the IX-th International Ecological Action "To Save and To Preserve" as a part of the weekend club during the XIV-th International Ecological Action "To Save and To Preserve" based on the MUK RDKI "Konda", it was held the following environmental events, entertaining and game programs - 2, attendance - 42 persons, creative workshop - 1, attendance - 18 persons. 15 sessions of environmental videos was shown within the District-wide cinema campaigns "Green cinema" before the children's film screenings provided by AU "Ugorsky Kinoprotat" of Khanty-Mansiysk city, their attendance was 865 people, including 465 children.

On the basis of Mortkinskaya Secondary School, it was held the District ecological scientific-practical conference for schoolchildren "To Save and To Preserve" and a contest of environmental arts "The World in Your Hands", which was attended by 59 schoolers and 30 teachers participated from 8 educational institutions. At the conference, it was held the opening ceremony of the District action "To Save and To Preserve".

On the basis of Leushinskaya and Mulymskaya Secondary Schools, it was held the District-wide game program for schoolers of grade 4-5 "Come into the forest with friend", which was attended by 8 teams from 7 educational institutions, the total number of participants was 42 schoolers. The specialists KU "Uraysky Forestry", "Kondinsky Forestry" and the specialists of cultural institutions were involved to the events conduction.

On the territory of the municipality, it was carried out the campaigns "Order and Cleanliness", under which basis the following events were organized: conduct of labor events on cleaning and greening of school grounds, gardens, events (active form) with the pupils on healthy lifestyle, meetings of senior schoolers with the representatives of administrations,

representatives of the executive committees of urban and rural settlements of the District in relation to consider the issues on landscaping, greening the settlement territories, monuments and obelisks to fallen soldiers, observance of order and cleanliness in the settlements, performance of mentor and volunteer work for categories of citizens in need of assistance on the landscaping and cleaning the house adjoining territories. The event was attended by 2,500 schoolers.

On the basis of the "Center for supplementary education", it was summed up the results of the qualifying stage of the District-wide contest of environmental leaflets "Let's Preserve the Nature and Culture of the Peoples of Yugra". The qualifying stage was attended by 56 works of schoolers of grade 1-11 from 7 educational institutions. Works of the winners of the qualifying stage were directed to participate in the District-wide contest.

15 educational institutions of Kondinsky District carried out the campaigns "Alley of graduates" dedicated to the celebration of the Farewell Bell Day, which was attended by 456 people.

The environmental event "Guardians of Nature" with 81 participants from 12 educational institutions of the District was held on the basis of health improvement and education (profile) of center "Yubiliyny".

There is participation of educational institutions in the District in the District-wide environmental marathon "My Yugra - My Planet". At the end of the marathon, the educational institutions prepared a presentation (application - presentation "Ecological Passport of Yugra - 2016"). An emblem of the District Ecological Action "To Save and To Preserve" (the author - the teacher for supplementary education N.Yu. Goncharova) was developed.

Also, annually, the collectives of organizations of all forms of ownership took active part in the events on gardening and cleaning the surrounding area from debris in addition to the environmental and educational events. In 2016, it was planted 2000 roots of flowering plants in open ground on the territory adjacent to the building of the Palace of Culture within area of 200 m².

The total number of planted trees was 7, 320 bushes and flowers.

On May 12, 2016, at the opening ceremony of the Ecological Action "To Save and To Preserve" by the Municipal Public Institution "Cultural and recreational association "Constellation of Konda" in settlement of Kondinskoe, it was carried out an environmental adventure educational program "Preserve soil - Save life on the Earth!". The program focuses on the children's audience, fostering respect for the nature from an early age. Children were able to consolidate the friendly relations skills to nature, to expand their knowledge of the biological diversity of the planet. The volunteer event "Clean Forest" was held on 13th of May, the volunteers and members of the material support cleaned places for recreation "Kurtova Poliana". The contest program "Dad, Mom and I is an environmentally-oriented family" was conducted on May 26.

The ecological bike ride organized by the employees of MBU "Cultural and recreational Center", settlement of Mortka, which gathered young people and teenagers for participation in the ecological marathon to support the ecological vehicles and to celebrate the World Environment Day was the most interesting event.

The participants of the bike ride consider that their example will draw attention to environmental issues as the cars compared with other vehicles causes the most significant damage to the ecological condition of the settlement.

17 events were prepared and conducted in municipal public institution "Center for Culture and Youth", settlement of Kuminsky, within the framework of the XIV-th International Ecological Action "To Save and To Preserve" from May 12 to June 5, 2016.

Every year within the framework of the Action "To Save and To Preserve" in the village of Leushi, it is organized the eco-volunteer teams for planting trees on the Akh River bank. The eco-volunteer teams involved the guys from the youth labor team, public council, council of veterans and children of leisure club "Ostrovitiane". It is carried out the garbage collection, cleaning the bank zone, hanging the posters. Posters are drawn by the children from leisure club, for example "Have a rest - take away the garbage", "Do not litter, where you rest", "Take care of the native nature", etc.

On May 12, 2016, the Village Culture Centre of the settlement of Listvennichny conducted the educational program "Preserve soil - Save life on the Earth!".

The educational program was held for kids in two parts. The first part showed representation "Save Life on the Earth", through which the children learned the environmental problems of our Earth, what was an appeal to the younger generation, to protect their land and preserve its wealth.

Langepas Town

164 environmental protection and environmental education events was conducted during the Action, which was attended by 11,450 people. On May 14, 2016 in Langepas town, it was held a solemn opening ceremony of the XIV-th Ecological Action "To Save and To Preserve". The Action was opened by the Affairs Manager of Langepas Town Administration A.S. Anisimov. After the solemn opening ceremony of the XIV-th Ecological Action "To Save and To Preserve", the participants started the cleaning of the allocated territories in the forest zone. The Saturday volunteer cleanup event was attended by the Langepas town administration, public organizations, college students, and educational institutions.

The campaign "Spring Arbor Days" was opened by the Affairs Manager of the Langepas Town Administration Andrei Serafimovich Anisimov, the Head of the Department of Environment, Natural Resources and Non-Primary Economic Sector the Langepas Town Administration Dmitry Viktorovich Bokash. The opening ceremony was attended by the public organizations, college students, representatives of sports institutions, employees of the Prosecutor's Office of Langepas town and Langepas town administration.

After the opening ceremony of the campaign, the participants started planting the trees.

Planting the tree saplings is performed on the "Alley of Victory" in the public garden "Globus". The college students participating in this campaign planted the pines.

Also, tree planting was carried out on the territory adjacent to the building of the Langepas town administration, on the territory adjacent to the sports facilities, on the territory adjacent to the center "Fortuna". The public organizations, representatives of sports institutions, employees of the Prosecutor's Office of Langepas town and Langepas town administration took participation in this campaign.

50 trees and bushes were planted on adjacent territories in the different micro-district of town. Also, employees of budget institution "Municipal Enterprise of Water and Heat Supply and Waste Water Treatment" and budget institution "Motor Vehicle Administration" planted 150 trees.

The city Langepas educational institutions Rally

The campaign "Alley of graduates" took place on the territories of the Langepas town schools. It was planted 115 birch and rowan tree saplings.

About 450 saplings of trees and bushes were planted within the framework of the campaign "Spring Arbor Days", which was attended by about 830 people.

All educational institutions conducted common lessons and events on the theme "Preserve soil - Save life on the Earth!". Such events carried out for the purpose to establish ecological culture. The schools held class hours, quizzes "Soil - the Living Earth", "The wonderful nature is full of mysteries", event "Rubbish is the planet enemy", "Seeds", "Garden on the window", tours "Where the plants grow better". The pre-school educational institutions carried out experiments, entertainments, talks and presentations.

The schools held drawing contests: "We are friends of nature", "World of Nature", "We want the nature not to suffer from the people", photo exhibition-contest "Man and Nature".

The book exhibitions "From the ecology of nature to the ecology of the soul", "Let's save nature together", "Take care of the green world, be the idol for animals!", "Sprig of environmental knowledge" were prepared. The campaigns "Green Area", "There has to be a tree", "Ode to the Siberian soil", "By unknown paths" were conducted.

The campaign "Waste paper, give up!" was held in Langepas town. Such campaign was organized by A.A. Yerofeyev, the General Director of "Universal Siberian Company" LLC.

The town schools took active participation in the campaign.

On May 27, the quiz "Environmental traffic light" was held for schoolers of 5th grades. The main objective of environmental education is to awaken the children's love to nature and a sense of responsibility for it. The development of environmental culture is formed at children in school hours and during extracurricular events.

The pre-school educational institutions conducted eco-lessons: "Mobile technology for environment", "Preserve soil - Save life on the Earth!". There was the contest of leaflets "Protect the environment". A special exhibition "The natural world of flowering plants", "Wonders of paper" was held.

For pupils of preschools, it was organized the quizzes "How to behave in nature", "Signs, reminding the rules of behavior in nature", "Kaleidoscope of Nature", "Know-All", the game "Be Your Own Doctor", music and sporting event "Journey to the fairytale forest". It was prepared the theatrical performance "On the walk".

The pupils of town schools participated in the International Youth Ecological Forum "One Planet - One Future!". Langepas town was represented by: Fayzullo Dzhuraev (pupil of the secondary school No. 1), Elizabeth Kudina (pupil of the secondary school No. 4), Irina Shapovalova (pupil of the secondary school No. 5) and Daria Sergeevna Tyulyupa (team leader, expert of LG MKU "UODOMS"), the town team was actively involved in all program events of the forum, the projects of schoolers were highly appreciated by the contest experts. The Projects of Fayzullo Dzhuraev- "Such a simple - not simple mineral" and Irina Shapovalova - "Life among cars" entered the top five socially significant environmental projects.

The District-wide contest "Ecologist of Yugra" was attended by 8 teachers.

The educational institutions took part in the international campaign "March for Parks – 2016". 7 contests were held in the framework of the campaign. According to the results of the reader contest "We devote verses to the nature of our land" Anna Kochegarova, the pupil of the secondary school No. 5, became a winner in the nomination "7-10 years old".

The town educational institutions distributed the campaign materials among the town residents. Booklet-memos were prepared.

The Langepas Polytechnic College conducted the environmental-orientated events: class hours, lectures. Also, the students and teachers took an active part in planting trees, layout of flower beds on the territory of industrial workshops and college.

The art department of Langepas preschool institution "Children's Art School" held the exhibition of paintings "Nature through the Eyes of Children". The concert and thematic event "Earth - Our Home!" was held in the concert hall of Langepas preschool institution "Children's Art School".

The educational institutions held exhibitions of creative works (paintings, handicrafts made of natural and trashy material) "To Save and To Preserve", "Our Planet - the Earth".

It was organized the contests of newspapers and posters "Let's protect our Earth!", class hours "Let's Save the Nature", tournaments of connoisseurs "Forest Ecology", quizzes "Environmental traffic light", "Yugra - Our Common Home". Also the conference "Ecological problems, forecasts and projects of Yugra" and defense of the environmental projects "Environmental problems of the town" was carried out in the schools.

The kindergartens conducted the environmental holidays "Soil – the Living Earth", "Who make the soil?", "Composition of Langepas Soil", "Kingdom of Earth", "Russian Birch", "On a visit to the grandfather pedologist". The quiz "Connoisseurs of Nature" took place. The exhibition of children's drawings: "Nature Through the Eyes of Children", "Bloom, my Langepas town!". Experiments "Loose Sand", "Is air in the soil?" were conducted. Exhibition of handicrafts made of natural and trashy materials "The Second Life of Things!".

In addition to participating in contests, the town educational institutions distributed the campaign materials among the town residents. They were prepared booklets "Protection of Forests Against Fire", "Forest - the Lungs of Our Planet", "Protect the environment!", memos "How to Behave in the Forest".

The budget institution of Khanty-Mansiysk Autonomous District – Yugra "Rehabilitation Center for Children and Adolescents with Disabilities "Anastasia" held an environmental educational event for minors "Soils of Our Region".

The budget institution "Multifunctional Center" held a drawing contest "Langepas - My Little Motherland" among children of employees of the budget institution "Multifunctional Center", as well as some stories about conduction of the XIV-th International Action "To Save and To Preserve" were broadcasted in the budget institution "Multifunctional Center".

Employees of the center "Fortuna" conducted the campaign with the participation of representatives of the national public town organizations "Fairy Tale Town - Dream Town!". Within the framework of the campaign, birch saplings were planted on the territory adjacent to the center "Fortuna" and Saturday volunteer cleanup events were carried out.

Workers of budget institutions "Sports Complex" held the volunteer cleanup event on preparation of sports venues for the summer period - the territory of the Palace of Sports, hockey courts, sports hall for mini football, sports center with universal gym, sports and fitness complex "Vityaz", tennis court, ski lodge, central stadium, ski trail, sports complex "Neftianik".

Employees of sports complex "VSK Dolphin" held the volunteer cleanup event on the territory of water-sports complex "Dolphin", water sports and fitness complex "Dolphin".

The number of the Action's participants increased every year, which is a positive factor in the development of environmental education of the population of our town.

Megion Town

Within the period from May to June 2016, the urban District Megion town took an active part in the XIV-th International Ecological Action "To Save and To Preserve", which has already become traditional for the town's population.

In order to organize the events undertaken within the framework of the XIV-th International Ecological Action "To Save and To Preserve", before the beginning of the Action and within the period of its implementation, it was held three organizational committee under the Deputy Town Mayor for Social Policy and with participation of the Department for Social Policy of the Megion Town Administration, which was the curator of the Action in the Megion town, the Chief of the Division for Educational Work of the Board for Education and Youth Policy of the Department for Social Policy of Megion Town Administration, the Chief of the Division of Culture of the Department for Social Policy of Megion Town Administration, Chief of the Board for Information Policy of Megion Town Administration, the Chief of the Division for Work with Public Organizations and Appeals of Citizens of Megion Town Administration, the Deputy Chief of the Territorial Board of Megion Forestry Division of the Department of Environment, Natural Resources and Non-Primary Economic Sector of the Khanty-Mansiysk Autonomous District – Yugra, the Chief of the Housing and Utility Sector of Megion Town Administration, the Director General of the Open Joint Stock Company "Housing and Utility Board", the Director General of the Joint Stock Company "Town electric networks", the Director of the municipal youth autonomous institution "Start" A. L. Izmailov.

Based on the Decree of the Government of Khanty-Mansiysk Autonomous District – Yugra of March 11, 2016 under No. 110-rp "On the XIV-th International Ecological Action "To Save and To Preserve", it was issued a Decree of the Megion town administration of May 06, 2016 under No. 124 "On carrying out the XIV-th International Ecological Action "To Save and To Preserve" on the territory of the Urban District Town of Megion in 2016", which approved the plan of arrangements for the XIV-th International Ecological Action "To Save and To Preserve".

Particular attention was paid to environmental education and inculcation of respect for the nature (fauna and flora), as well for preservation of the cultural heritage of different nations, in particular small-numbered peoples of Yugra.

The educational and environmental protection events shall focus on preschoolers, school children and adolescents, because they will take the baton of the environment protection and preservation of human culture.

At the opening ceremony of the Action, which was attended by residents of Megion town, students and pupils of educational institutions, it was determined the planned actions, established the target criteria and outlined the main directions of the Action. The XIV-th International Ecological Action "To Save and To Preserve" started in Megion with the Saturday volunteer cleanup event and planting trees. This year it was held under the slogan "Preserve soil

- Save life on the Earth!". The opening ceremony, which was held in the public garden devoted to the 500-millionth ton of oil, was attended by the heads of the municipality, representatives of enterprises and organizations, Fund of Town Development "We are together", members of the local branch of the party "United Russia", schoolchildren and all other indifferent Megion-residents. For active participation in social environmental events in 2015, the Town Mayor awarded letter of thanks to the leaders and teams of JSC "Town electric networks", Joint Stock Company "Housing and Utility Board", budget institution "Municipal Enterprise of Water and Heat Supply and Waste Water Treatment", municipal youth autonomous institution "Start", educational institution "Secondary School No. 9", educational institution "Secondary School No. 1", preschool educational institution "Kindergarten No. 5 "Krepysh", preschool educational institution "Kindergarten No. 3 "Lastochka", budget institution "Centralized Library System", municipal autonomous institution "Regional historical, cultural and ecological center", municipal autonomous institution "Palace of Arts" and the territorial division of Megion Forestry. After the official part of the solemn opening of the Action, the participants received the route sheets and went to clean up the bank territory of the Saima River within the town campaign "Clean beach - Pure Water".

At the same time, the employees of the budget institution "Centralized Library System" planted 20 saplings of lilac near its building and the pupils of the educational institution "Secondary School No. 3 and volunteers planted 45 bird cherry trees and laid the "Alley of good works". Events continued by the town-wide picnic.

According to the plan the arrangements for the XIV-th International Ecological Action "To Save and To Preserve", the residents of Megion town took part in the municipal stage of the District-wide ecological marathon "My Yugra - My Planet". This event was started with the solemn opening ceremony, which was attended by the representatives of local governments. The pupils of preschool educational institutions and students of educational institutions performed the concert numbers on environmental issues. Within the framework of ecological marathon, it was conducted 641 information and educational events, 305 art and aesthetic events of direction, 212 environmental and practical events.

Within the framework of the Action, it was held municipal stage of contest of environmental leaflets "Let's Preserve the Nature and Culture of the Nations of Yugra", which was attended by the children and adolescents of Megion town. At the end of the contest, the best works were sent to participation in the regional stage.

Municipal stage of the regional contest "Ecologist of Yugra" was attended by the specialists of the environmental agencies. Also the District-wide stage of the contest was attended by the Head of the school forestry "Sobol" of the educational institution "Secondary School No. 7" V.I. Kaipov, who won this contest in the category of "Representatives of the associations operating in the environmental field" and pupil of 11 of Secondary School No. 7 and a member of the school forestry "Sobol" Karina Petrenko was awarded a diploma for active participation in the environmental movement of Yugra and achievement of high results following the participation in the county, national and international contests.

It was conducted the campaign "Alley of graduates", which was attended by 516 graduates of grade 9-11 of educational institutions, 224 parents of the graduates. As a result of the campaigns, it was planted 12 pines, 16 birches, 5 aspens, 13 cedars, 21 lilac bushes, 41 rowan bushes, 9 apple trees, 40 bird cherry trees in the territories adjacent to the educational institutions.

The eco-volunteer teams consisting of 223 students of educational institutions, held 47 events within the District-wide environmental protection campaign "Clean Forest" to clean up debris from the Megion town territories.

The traditional holiday of Konda Mansi "Wagtail Day" visited 415 people, including 364 children of different ages; it is the spring holiday of Ob Ugrian peoples.

Events undertaken in the framework of the XIV-th International Ecological Action "To Save and To Preserve" were covered in the media.

The XIV-th International Ecological Action "To Save and To Preserve" was completed in the Megion town by solemn closing of a large-scale social projects. During the closure, it was summed up the results of the Action, as well as the winners of the main environmental contests were announced.

Nefteyugansk City

In the Nefteyugansk city within the framework of the XIV-th International Ecological Action "To Save and To Preserve", it was organized and held the traditional Saturday volunteer cleanup event on sanitary cleaning of the city. The event was attended by about 900 people: labor collectives of city enterprises, the City Duma, departments and agencies of the city administration, "RN-Yuganskneftegaz" LLC, "RN-Inform" LLC, management companies, and others. As a result of Saturday volunteer cleanup event, it was cleaned the debris from more than 16 sites around the perimeter and in the center of the city, removed about 200 cubic meters of debris and exported to the landfill.

On May 14, it was organized and held another Saturday volunteer event for landscaping of the city.

The event was attended by civil society organizations, representatives of the Nefteyugansk city branch of the All-Russian political party "United Russia", "The Young Guard" of the party "United Russia". They were planted pines, rowans and birches, a total of 63 young trees.

Every year, the subordinated institutions of culture and education are actively involved in the International Ecological Action "To Save and To Preserve", the purpose of which is to form the ecological culture among the younger generation.

In 2016, it was organized and conducted events of various kinds: video materials, field trips, contests, presentations, quizzes, educational hours and talks, cognitive-playing programs on ecology.

Main events of the XIV-th International Ecological Action "To Save and To Preserve" in the city of Nefteyugansk were covered in the media.

On May 12, municipal institution "City Library" under the slogan "Preserve soil - Save life on the Earth!" held the opening ceremony of the campaign "To Save and To Preserve". The purpose of the event: to attract public attention to one of the most pressing environmental issues of today's world, the depletion of topsoil.

The grand opening of the Action was attended by the Head of Nefteyugansk city administration, representatives of city environmental and ecological institutions, the old-timers, public and students.

The creative groups of municipal institution "Center of National Cultures": "Yuryuzan", "Cherry style", "Babblers", "Native Song" came up with a festive concert.

In the library foyer, the specialists of municipal institution "Culture and leisure complex" held a campaign "Clean up the World" for the collection of used batteries. All participants of the event received the leaflets "About the harmful effects of batteries on the ground" with a detailed pictorial information, why cannot throw the batteries in normal trash and what harm caused by the carelessly thrown battery. The presentation of the digest "The environmental situation in the Nefteyugansk region" was shown.

The ecological action covered 792 events with participation of 15,313 people including 12,873 children, 2 440 teenagers and young people.

Nefteyugansk District

In 2016, the XIV-th International Ecological Action "To Save and To Preserve" took place under the slogan "Preserve soil - Save life on the Earth!". In all settlements of the District, it was conducted month volunteer cleanup events on sanitary cleaning and landscaping of the district territories including environmental volunteer cleanup events, work of labor teams and Saturday volunteer cleanup events under the slogan "Earth - Our Home! Do not pollute it", "My clean home", "Green Forest", "We are for clean beach", "We are for the clean planet", "My yard, my street, my village", "Clean Yard", "Let the planet will be more clean", "Man is not the master, but a part of the nature". Enterprises and organizations, kindergartens, schools, cultural institutions, sport and health attended the events on cleaning up the debris from the allocated territories, carried out work on landscaping. It was conducted the campaigns: "Cleaning school territory", "Green colors of summer", "The cleanest yard", "Water for Life", "Tidy up the settlement", "I love the Earth", "Living Water", "Protect the forest against fires", "Spring Arbor Days", "The most beautiful flower bed", "Alley of graduates", "Let's decorate the garden with flowers", "Plant your tree", "To save Yugra nature is our duty".

On April 26, it was held the grand opening of the District-wide environmental marathon "My Yugra - My Planet" in the municipal educational institution "Secondary School No. 4" in the settlement of Poikovsky and municipal educational institution "Cheuskinskaya Secondary School". During the Forum, it was held the following events: exchange of experience on issues of the environmental education and awareness, poster contest "Green Planet", exhibition "Holy tree - the sacred tree", contest and game program "Earth - our home, our wealth", cognitive game of Club of the Funny and Inventive "Water Bodies of Yugra".

On May 12, on the opening day of the XIV-th International Ecological Action "To Save and To Preserve", the settlement of Cheuskino traditionally held the Saturday volunteer cleanup

event "Save the Pine Forest" for cleaning natural monument of regional significance "Cheuskinsky Pine Forest". The pine forest clean up event attended by the employees of the administration of the district and rural settlements, forestry representatives, employees of the local school and settlement residents. Cheuskinsky Pine Forest is one of the most beautiful places in the district located on the right bank of the Yuganskaya Ob Protoka, with a total area of 100 hectares. The cleanup event was attended by 57 people. It was cleaned the area of almost 20 hectares.

The International Ecological Action "To Save and To Preserve" in educational institutions of Nefteyugansk District traditionally held by a special plan throughout the whole year. As a part of the program "Development of education and further education", it is implemented the direction "Environmental Education". By the XIV-th International Ecological Action "To Save and To Preserve", it was prepared and carried out the following events in the district libraries: drawing contests "Yugra - our home", "The Red Data Book through the Children's Eyes" and "Save the Planet", photo contest and photo exhibition "Ecology of Nefteyugansk District", environmental quizzes "Be a Guest at the Nature", "From the Bird Lives", "Green Carousel of the Nature", "Yugra what is a divine grace: it is for us a father and a mother", talks, games, tournaments, environmental programs "From the Green World Life" "Birds Day", "Water Day", "Earth Day", "Nature Tour to the Forest", contests of creative works, environmental book exhibition, reviews, information hours and more.

The school camps continues the Action "To Save and To Preserve". In summer, children have not only relax and fun, but work in the best of their ability and age: planted flower seedlings in the beds, clean the trash from the school grounds.

In total, 298 events took place in the Nefteyugansk District from May 12 to June 05, 2016, where 11,126 people including 7,523 children, adolescents, young, participated. During the period of the Action, 2,311 cubic meters of garbage was removed from the territory of 56 hectares, more than 28,000 trees, bushes and flowers planted.

All purposeful work contributes to raising environmental awareness and active life position in solution of environmental issues by the younger citizens, encouraging the most active representatives of the environmental movement, patriotism, sense of responsibility and involvement into the most important events of the country. Thus, the Action "To Save and To Preserve" is a part of a systematic work on formation of ecological culture at children and youth under conditions of modernization of the Russian education.

Nizhnevartovsk City

Traditionally, on May 25, as part of town holiday "Farewell Bell Day", it was held the District-wide campaign "Alley of graduates", which consists in planting young trees and bushes by graduates of 11th grades on the school grounds. More than 430 saplings of trees and bushes was planted within the framework of the campaign.

Within the framework of town ecological campaign "Plant a Tree", the organizations, entrepreneurs, public representatives planted 870 pieces of trees and bushes, 158,735 pieces of flowers as a part of tree planting events organized by the educational institutions, town managing companies, Nyagan municipal institution "Town Management Board". 9400 m² of territories were landscaped.

Events for sanitary cleaning, greening and beautification of the town have priority. Annually events are conducted within the boundaries of the municipality to eliminate illegal dumps.

Events of the action were covered in the media, official websites of the Administration of the Nyagan town, library website. The aim of all such events was to attract public attention to existing environmental problems.

Oktyabrsky District

Within the framework of the International Ecological Action "To Save and To Preserve", the cultural and leisure institutions of the Oktyabrsky District conducted 335 environmental protection and environmental education events. Among these festivals, talks, quizzes, exhibitions, gala events dedicated to the opening and closing ceremony of the Action. These events were attended by more than 4,000 people, including 3,000 children, adolescents and young people.

97 events of the Action were performed to clean debris, landscaping the settlement territories within the boundaries of the Oktyabrsky District. These events allowed to clean an area of over 12 hectares, the volume of the removed debris was more than 5375 m³.

65 events for landscaping the settlement territories took place. Number of planted trees, bushes and flowers was 720 pieces. Total planting area exceeds 2,314 hectares. The number of environmental event participants was more than 1,300 people, including more than 750 children, adolescents and young people.

Information support of events of the Action was carried out through publications in the print media and on the internet resources (27), messages on television air of TV channel "Koda" (2), production and distribution of paper and printing booklets (220).

The total number of participants involving into environmental protection and environmental education events was 4,049 people, including 3,132 children, adolescents and young adults.

Pyt-Yah Town

The town educational institutions carried out events aimed at environmental education and enlightenment: contests, theater performances, slide-shows, games-travels, master classes, discussions, collages, eco-games,

quizzes, promotions, presentations, contests of drawings and posters, flyers, contest of handicrafts from waste material, class hours.

An environmental hobby group "IKO" works on the basis of educational institution "Secondary School No. 5". Number of members of the hobby group is 30 people.

Kindergartens have actively participated in the drawing contest "Green Bus", the children's drawings were placed on buses in the town municipal routes. The most active participants were awarded incentive prizes. Residents of the town can get acquainted with them during their journey in public transport.

Every year, town residents are actively involved in the photo contest "Nature in Focus" in three categories: "Moments of Life"; "The Earth is in danger"; "Cleanliness saves the world". Photo exhibition of photographs is organized by KSK "Fakel", where everyone could see the works of the contestants. The contest jury defines the winners, who will be awarded the certificates and cash prizes.

On April 22, 23, 29 and 30, 2016, the general Saturday volunteer cleanup event were organized by the town enterprises, the managing companies and homeowner association took an active part in environmental cleanup "My Clean Home - Yugra". Just clean-attended

3,795 people participated in the Saturday volunteer cleanup event and 621.16 m³ of debris was removed and transported.

On XX-th of May, the town residents, organizations, institutions, enterprises and schoolers took an active part in the event "Clean Bank" held annually in conjunction with the Russian Ministry of Emergency Situations for cleaning of places of mass recreation of population.

In order to attract the public attention to the problems of conservation, restoration and enhancement of forest resources, on May 20, 2016, the town administration organized and held the All-Russian campaign "Spring Arbor Days", the managing companies and homeowner association together with veterans of the Great Patriotic War, as well as active residents planted saplings near their houses.

On May 12, 2016, the Opening Ceremony of the Ecological Action "To Save and To Preserve" took place and it was planted two pine alleys.

For the town population, it was organized the "hot line" on issues related to environmental problems.

Annually, the ecological newspaper "Man and Life" (MaL) is published within the framework of the Action. It consists of four pages. This newspaper has official material (achieved results, opinions of authorities on the action and ongoing events, information on the regulatory laws in the field of environmental protection), town photos, notes of residents on the environmental situation available in our town and proposals on how to improve the environmental situation and other useful information.

The performed events are covered in the media, posted on the official websites of the town administration, and in all social networks of the Internet.

Pokachi Town

Within the period from May 12 to June 6, 2016, the pre-school and general educational institutions of Pokachi town held 82 events dedicated to the XIV-th International Ecological Action "To Save and To Preserve". 2,034 people participated in the Action.

During the events, the teachers shaped the environmental awareness, respect for all living things among children. Environmental education in the modern world is regarded as one of the most important aspects of socialization. That's why today's ecological situation is a subject of civic education. Raising citizen is an equipping the person with respect for himself/ herself as socially significant person. Just feeling themselves as socially important people, people seek to change the world.

The Town Library took part in the Action. On 18th of May, the informative lesson "Let's talk about the soil", whose participants were pupils of the grade 3 "V", took place in the educational institution "Secondary School No. 4". During the lesson, the pupils learned how soil was formed, from what it is composed, why the soil is fertilized, how the soil appears and develops under the influence of living organisms, mostly plants and what role it plays in the life of our planet - it is a transition link from the inanimate matter to the animate one. To consolidate the knowledge the schoolers received the environmental jobs.

Exhibition "There is no bad soil, there are bad farmers" is performed, which introduces the readers to the problem of soil contamination and their preservation, as well as exhibited books and illustrations devoted to the planet environment.

For the students of the Children's School of Art, it was organized a concert program "Spring Droplets", which was attended by creative school groups, and cognitive-game program "Environment Around the World", on which basis it was conducted the environmental quizzes, contests, music and outdoor games. The objectives of these events was formation of the ecological culture, upbringing sense of thrift and protection of nature among the younger generation, as well as activation of students in the leisure events, development of creative potential.

In the framework of the XIV-th International Ecological Action "To Save and To Preserve", a cultural and educational event "Nature is life, nature is paradise, love and defend it!" was held in the museum, which was attended by the pupils of the secondary school No. 2. The participants learned about the history and significance of the Action, got acquainted with the logo of the Action. And in the end of the event, it was carried the game program with a variety of tasks: to make as many as possible words from the word "nature", to guess the main characters of fairy tales, to guess riddles of taiga region. Children answered the questions and performed the tasks gladly and quickly.

During the Action, the staff of the Cultural Center "October" organized 4 events. It was carried out the campaign "Preserve soil - Save life on the Earth!" to involve 320 town residents, as well as to equip the younger generation of Pokachi town with environmental culture, consciousness and outlook, 2 environmental games: "Who lives in the tower?" and "Neither a speck of dust, nor a mote" and informative - game program "In the realm of flora and fauna" were conducted for children and adolescents.

Enterprises and institutions of Pokachi town have been actively involved in landscaping and planting trees, bushes and flowers. During the period of the Action, 64 environmental events took place.

The Saturday volunteer cleanup events were carried out in the town territory and forest area dedicated to the District-wide Saturday volunteer cleanup event "My clean home - Yugra".

Raduzhny Town

On 12th of May 2016, 12 educational organizations of the town have launched the Ecological Action "To Save and To Preserve". 20 events were organized and conducted on this day. These are: cleanup event "Throw the life buoy to the nature", manufacturing feeders "Feeders by own hands", research activity during the plant growing process "Garden all year round» (cucumbers, tomatoes, onions, peppers, sprouts flowers), planting the flowers in the area of education organizations, contest of creative works "Earth is our common home", distribution of leaflets and flyers "Protect the forest against fire", "Save the Yugra forests" for children, adolescents and young people, as well as the distribution of leaflets "Nature is in danger!" and others for parents.

On May 24, the Cultural Center "Neftyanik" of Raduzhny town hosted the opening ceremony of the Action "To Save and To Preserve". The event was held in the form of festive and concert program, where dance, music, theater numbers of the Town Center of Children's Art were presented. The total number of performers was 150 children, adolescents and young adults.

Prior to the event, the members of the school forestries "Medvezhonok" and "Tayozhnik" conducted the town campaign "Clean banks for our rivers and lakes" in the lobby of the Cultural Center "Neftyanik" with the distribution of leaflets to the guests and participants of the campaign. The Graphic designer of the Town Center of Children's Art performed the photo exhibition "Our Yugra".

During the solemn opening ceremony of the Ecological Action, it was summed up the results of the 13th International Ecological Action "To Save and To Preserve" and handed over letters of thanks from Federal Service for Environment Supervision, Plants and Animals, Forest Objects of the Khanty-Mansiysk Autonomous District – Yugra to the representatives of municipal authorities and educational institutions.

The event was attended by the distinguished guests, representatives of town municipal institutions, heads of the educational institutions, children, adolescents and young people. The total number was about 200 people.

For the purpose of formation of ecological culture among the younger generation, the educational institutions held thematic lessons, class hours, talks "To the nature - with kindness", "Planet Earth is in danger", "Man in the World of Nature", "Let's save the legacy of Yugra land", "Take care of nature ", " Water for life" and others.

The schools and kindergartens conducted contests, music and game entertainments, environmental wits and humor competition "We are friends of nature", "On a visit to the little hare", "Journey to the Spring Forest" and so on. It was organized and carried out game programs, trips, excursions, exhibitions of children drawings and handicrafts on the theme: "Ball of flowers", "Ecology and we", "Nature through the eyes of children", "The summer has come to us", collage "I am a little ecologist", photo exhibition "Yugra - my home, where I live!", "Let's decorate the planet with flowers", contests, seminars, conferences and others.

In order to attract a lot of attention of children and adolescents, the schools and kindergartens performed the campaigns with a positive social effect " Save and Preserve the Nature", "Protect the Environment", "Green Sill", "Green Patrol", "Rainbow flower bed", the events "Only together and in a friendly manner we can help the nature" and others were conducted by the employees on territory beautification.

Parents (legal representatives) of pupils of town kindergartens distributed the children's environmental flyers "Let us, adults, protect the nature! Never forget about the nature!" among the dwelling houses.

It was distributed the booklets "Touch the Nature Though the Soul!", "Save the Nature", "Save Water", "Cherish the Primroses" and "Protect the forest against fire!" to the parents (legal representatives) of pupils of town kindergartens and schools.

"On the Green Trail" - the name of propaganda team from the school No. 4 consisting of 50 pupils.

Within the framework of the Action, the educational institutions organized and carried out the volunteer cleanup events: "Bloom always our kindergarten", "Clean City begins with you", etc. The Children's Art School organized the campaign "Clean banks of Agan River".

Within the framework of Forest Planting Day on May 20, 2016, 58 graduates of grades 9-11 planted the Alley of graduates together with the pupils of pre-school No. 5 "Rostok". 23 pupils with graduates tied the balloons with wishes to the sapling. Also, the town schoolers, members of the school forestries "Medvezhonok" and "Tayozhnik" planted 150 saplings of larch. Also, on this day, the event participants released the young fishes (Marsh peled) into the AI-Yagunlor Lake and the adjacent territory was planted with cedar saplings, which organizer was Midhat Ravilovich Khasano, the Vice-President of Tyumen Regional Public Fund named after V.I. Muravlenko.

In the framework of the XIV-th International Ecological Action "To Save and To Preserve", it was held 242 events. About 13,913 participants took part in the environmental protection and environmental education events during the Action.

Also in the framework of the XIV-th International Ecological Action "To Save and To Preserve" and in order to landscape the town, on June 10, 2016 (due to weather conditions), the Raduzhny town administration participated in the Saturday volunteer cleanup event "My Clean Home - Yugra" forgetting about the decision, common questions and other work, officials with jokes and laughter collected debris accumulated over the winter on the territory of the hospital complex.

By this example, the eco-volunteer team tried to induce the Raduzhny-residents to make the town clean and beautiful together.

The representatives of administration, subordinate agencies and the Town Duma participated in the cleanup event. About 100 people participated in the event. Armed with trash bags and gloves, they performed a cleanup. They worked as long as they did not collect all the trash - 3 m³.

The embankment of the Agan River was included into cleanup events. The Board for Civil Defense, Emergency Management and Fire Safety together with the Board of Capital Construction took the patronized the favorite vacation spot of the townspeople. The participants of the Saturday volunteer cleanup event collected by own hand glass, bottles and other debris that is left by the vacationers. Everybody worked well. The officials declared that they worked with pleasure. The Saturday volunteer cleanup events bring people together to achieve a common noble goal. The voluntary work for town beautification brings up the people to the ability to appreciate the beauty and keep tidy.

The Ecological and Ethnographic Museum and libraries of the town carried out a series of educational events (9 events, 788 participants) aimed at formation of ecological outlook among the participants.

A significant number of events designed for the younger generation, because a sense of emotional closeness with nature and foundations for relations with the environment are developed during childhood. Thus, on 24th and 30th of May, the Ecological and Ethnographic Museum held two events with game elements "Animal of the Taiga Lands". The young museum visitors got acquainted with the nature of their native land and wildlife of our region in a playful manner. In order to learn a lot of new and interesting things about animals that live in our region, children of older age groups went through the halls of museum, where they should guess the riddles and find the required species of birds, animals, fish and insects. Dialogue with children was held under the motto "Do you know that ...?". The pre-schoolers made independently conclusions about general features of a particular group of animals learning, at the same time, the classification of the animal world. The number of participants of the events: 48 persons, 46 of them were children.

On 6th of June, the library branch No. 2 started the campaign "Batteries, Give Up!". Participants of the event were the children of recreation camp at the rehabilitation center "Tsvetik-semitsvetik" (35 people). At the opening of the campaign, the library installed a container for collection and storage of waste batteries. Now everyone library visitor can join the environmental movement to preserve the environment! The campaign will last from June 6 to August 20, 2016. Results will be announced on August 25, 2016.

For pupils of the educational institution "Raduzhny school for pupils with special needs or disabilities" (17 people), it was conducted a correspondence tour to the zoo, "On a visit to the animals". During the informative conversation, the guys learned when and by whom the first zoo was established, actively participated in various contests: "Contest of riddles", "Guess who?", so on. But not all animals can be seen in zoos. Such animals like dinosaurs lived on the planet and became extinct long before humans appeared. Therefore the children were offered to view a presentation "Small Dinosaurs".

An effective means of drawing attention to the environment protection are exhibition of children's creative works. One of these exhibitions "I paint my world and give it to you" works in the lobby of the Children's Library since June 6. Most of the works of the exhibition are provided by the students of the Children's Art School. In their drawings, the young readers reflected the beauty of nature and expressed their understanding to the problems of environmental pollution. The exhibition opening ceremony was attended by 37 people.

The autonomous cultural institution "Palace of Culture "Neftyani" in the framework of the Action held on May 24, 2016, it was conducted a thematic informative and entertaining program "Save the nature", which was attended by 45 people, including 40 children under the age of 14.

On May 12 - 30, the exhibition of works of young artists "Land of Yugra" was held in the Children's Art School. Age of participants is from 7 to 17 years old.

The exhibition was held on topics related to the involvement of people over the world to the problems of nature reserves, bringing up the younger generation to a sense of pride for our natural heritage and a sense of responsibility for its condition.

Goals and objectives of the events: Promoting the sustainable development of the Khanty-Mansiysk Autonomous District - Yugra through interregional and international cooperation in the field of environmental protection to ensure environmental safety and quality of life, the formation of ecological culture in the Raduzhny Town. Attracting the public attention to issues in the field of environmental protection and environmental safety through the

environmental education, environmental enlightenment, environmental advocacy and environmental protection work, the formation of moral culture and active life position among the young generation in relation to the issue of respect for the nature.

Sovetsky District

In accordance with the Decree of the Sovetsky District administration "On the XIV-th International Ecological Action "To Save and To Preserve" in the Sovetsky District" as of April 21, 2016 under No. 637, it was conducted 64 events, which was attended by more than 10,000 people.

The Ecological Action included a practical implementation and environmental education that evidenced by the conducted events on greening and landscaping of settlements, sanitary cleanup of streets and forests, eco-volunteer landings, contests and educational programs. The Action was attended by pupils of kindergartens, schools, environmental associations and school forestries, employees of the Territorial Division of Sovetsky Forestry, public institution of Khanty-Mansiysk Autonomous District - Yugra "Sovetsky Leskhoz", the Sovetsky branch "Base of aviation and ground protection of forests", students and teachers of the budget institution "Sovetsky Polytechnic College", workers of the Federal state budget institution "State Nature Reserve "Malaya Sosva", budget institution of Khanty-Mansiysk Autonomous District - Yugra "Nature Park "Kondinskiye Lakes", educational institution "Center "Sozvezdiye" named after I.T. Grishin the Colonel-General and the Hero of the Soviet Union", local self-governments of urban and rural settlements of the Sovetsky District, staff of the Sovetsky District administration, enterprises, organizations and citizens of the Sovetsky District.

On May 12, 2016, the Great Hall of the Sovetsky District administration held the solemn opening ceremony of the XIV-th International Ecological Action "To Save and To Preserve", where the participants presented their programs.

Environmental education events were aimed at promoting respect for nature by creating a positive ecological thinking and development of environmental culture among the general population.

1. Libraries: municipal institution "Inter-settlement library of the Sovetsky District" is actively engaged in environmental education, it conducted an interesting public events, including:

- Ecology Hour "Treasure of primeval nature". The event was dedicated to the history and current condition of Federal state budget institution "State Nature Reserve "Malaya Sosva". Goal: formation of environmental awareness and development of ecological culture among the younger generation, awakening young people's interest in the nature protection.

- Feast of the environmental fairy tale. Groups of the school-type day camps presented a stage adaptation fairy tale in environmental manner. The environmental fairy tales give knowledge about the nature, the habits of animals, relationship between people and flora and fauna. The fairy tales explain the essence of environmental problems, their causes, help to aware the world around us in an accessible form for children. Goal: to cultivate a sense of respect for the surrounding nature through the environmental fairy tales.

- Environmental game-contest "Colorful Planet". The event was held in the form of contests of 2 teams on knowledge of environmental issues, nature of native land. The event was accompanied by presentation and story about the Red Data Book of Russia and Khanty-

Mansiysk Autonomous District - Yugra. Goal: To raise respect for nature, form a system of knowledge aimed at cognition of the processes of human interaction, society and nature.

- Informative game "Do not hurt a worm".

The children heard the story about the earthworm, its usefulness in the entertaining and playful manner. The children took part in a theatrical quiz (one child depicted an animal, insect or bird, the other children have guessed). Goal: to form the foundations of environmental awareness among the children, bring up a gentle, humane and kind attitude to the nature and to each other.

2. The traditional and most important direction of activity of the natural parks and nature reserves is to preserve the natural state of the natural complexes and objects. The environmental education events of the natural parks and nature reserves is designed, primarily, to explain general public the modern role of the protected areas in the conservation of biological and landscape diversity as the basis of the biosphere, as well as their place in the socio-economic development of regions.

As part of the Action, the budget institution of the Khanty-Mansiysk Autonomous District – Yugra "Natural Park "Kondinskiye Lakes"(hereinafter - the Natural Park) and Federal state budget institution "State Nature Reserve "Malaya Sosva" (hereinafter - Reserve) carried out the following events:

- The cycle of information and enlightenment talks "The Wealth of Yugra Earth" for the elderly, disabled persons and persons under wardship of complex social services center "Irida" and home for senior or disabled citizens "Darina" on the topics: "Medicinal Plants", "Primroses" and "Berry resources" of the Sovetsky District and the Natural park territories.

- Broadcasting of videos on environmental issues in the cinema "Luch".

- Night at the Museum of the Reserve. On May 18, the Museum of the Nature Reserve "Malaya Sosva", whose doors were opened to all visitors in the evening, joined international campaign "Night of Museums". The main goal of the campaign is to show resource, opportunities, and potential of the Museum, attract the young people, families to the Museum for joint leisure. Night at the Museum of Nature was held in an entertaining form: with flashlights and reading informative stories from the book "Forest Alphabet". The author of the book is the writer - storyteller Vladimir Zotov. These tales of the flora and fauna of our forests help children and adults to learn more about the green miracle, the forest, with amazing and unique world of its inhabitants. Guests of the "Night" could take part in various events: picking up puzzles, guessing riddles, designing the reserve area on the paper. For the first time, everyone could turn into a bear, take part in a photo shoot and receive a souvenir photo.

The master classes were the most fun. Kids love to work with the paints and painted the plaster figurines – magnet with forest animals, mushrooms and fish. While the children participated in master classes, adults watched a series of documentary films on the reserved nature and people working in this field directed by documentary film maker Lev Vakhitov, as well as movies, created by the video studio of the Nature Reserve "Malaya Sosva".

- Interregional Youth Scientific and Practical Conference "Living Planet is a living soul" under the slogan "Apply local actions to the global problems!". The purpose of the conference: to attract the attention of young people to the Nature Reserves of the Autonomous District, to develop the system of intellectual and practical skills in young people associated with the study, evaluation and preservation of the nature of their native land - a small motherland. Organizers of the conference: Department of Natural Resources and Non-Primary Economic Sector of the

Khanty-Mansiysk Autonomous District - Yugra, the Natural Park, the Nature Reserve under support of JSC "NC" Kondaneft ", JSC" Ruspetro", OJSC "INGA". Participant of the conference: pupils of secondary schools, vocational and higher education institutions, members of school forestries, environmental associations, local history clubs, etc. from the different towns and cities of the county: Khanty-Mansiysk city, Sovetsky town, Yugorsk town, Priobye settlement, Pionersky settlement.

After registration and visit the Museum of Nature Reserve, the representatives from the organizers of the youth conference spoke at the plenary session. Then, it was started the work the three sections of the conference: "Environmental education, local history, geography and culture and tourism", "Preservation and study of biodiversity", "Environmental issues of natural resources". According to the results of sections work, the experts determined the best work, the authors and chiefs of which were awarded the souvenirs: Red Data Book of Khanty-Mansiysk Autonomous District - Yugra and photo albums "Nature Reserves of Yugra". The experts noted that the level of works of the conference participants is growing and to determine the best projects become more and more difficult with each passing year. Participants consider that the participation in such conferences is an opportunity not only to reveal their scientific and creative potential, but also to share experiences and knowledge with other participants. The conference was attended by 67 people, correspondence attendance - 20 people.

3. Annually, the team of teachers and students of budget educational institution "Sovetsky Polytechnic College" (hereinafter - the College) is an active participant of the Action events, each participant make his/her own contribution to the conservation of Yugra environment. The following events took place in the College:

- Class Hour "Soils" was held in the groups for the 1st and 2nd year students. Goal: to inform the students on peculiarities of soils in Russia and Khanty-Mansiysk Autonomous District - Yugra, to focus on major soil problems.

- Intelligent contest - Environmental battle "Soil is an environment of life" between the teams of the 1st and 2nd year students. Goal: to update the knowledge of soils of the native land and to identify the best students in the field of soil science.

- Literary and Art Exhibition - Contest "This is our world, it is beautiful and bright!". The 1st - 3rd year students took part in this amazing exhibition.

- Ecological living room "Legends of Yugra lands". The results of the Action were announced during this event, it was marked the most active participants. The zest of this event was the fashion show "Blooming Earth". The fashion show was prepared and showed by the 2nd year students of the department "Preschool education".

4. The Board of Education of the Sovetsky District Administration together with educational institution "Center "Sozvezdiye" named after I.T. Grishin the Colonel-General and the Hero of the Soviet Union" (hereinafter – the "Center "Sozvezdiye") for the purpose of formation of ecological culture, attraction of the attention of children and adolescents to the modern ecological situation and existing problems of ecological safety carried out the following events:

- Ecological and creative contest program "3-G Ecology". Each school delegation was invited to join eco-stations "Passengers of Green Carousel", "There is No Replacement Planet" and eco-workshops "Throw the life buoy to the nature", "Kaleidoscope of ecological surprises". For 30 minutes, the children could prepare presentation on environment protection, make the environmental wall newspapers, produce the handicrafts and toys from junk material, and

demonstrate their mental horizons in the interactive quiz by various areas of ecology, zoology, botany, local history.

- Cognitive-role-playing game on the local ground "Discover the treasure island", where the pupils of the environmental associations of the "Center "Sozvezdiye" arrived at the various stations and performed tasks on an ecological theme.

- Participation in the International Youth Ecological Forum "One Planet - One Future". The pupils of the environmental associations of the "Center "Sozvezdiye" became the winners in the nomination "The most active participant of the press-center", "The most active member of the forum".

- Organization and conduction of the district contest for design of the emblem for ecological marathon "My Yugra - My Planet". The contest received 27 works.

- Participation in the District-wide contest for the title of "Young ecologist".

- Participation in the annual inter-district rally of school forestries and environmental associations.

- The educational institutions carried out the contest of drawings "The World of the Reserved Nature", "Save our Earth", contest of flyers "The Reserved Nature without fire", environmental quiz "Earth is a Living Planet", and it was organized the show of social videos "Save the Nature by own good works" among children of the senior preschool age.

47 environmental education events were carried out as a part of the Action in the Sovetsky District, which was attended by over 8,000 people, 6,000 of which were children, adolescents and young people.

Within the framework of environmental protection events, it was carried out the Saturday volunteer cleanup events for cleaning debris and landscaping, labor landings, forest planting, greening works:

1. In order to revive the traditions in the field of education of the labor and environmental culture among residents of the Sovetsky District, it was held the following events:

- The campaign "Clean Forest" – cleanup industrial and domestic waste from the territories of Samzassky, Zelenoborsky, Torsky and Kartoposky district forestries.

- The campaign "Green Patrol" - cleaning the territory of the administrative building of the public institution of Khanty-Mansiysk Autonomous District - Yugra " Sovetsky Leskhov".

- The campaign "Clean Town" - cleaning the forest belt in the town park of culture and rest in the Sovetsky settlement.

- The Saturday volunteer cleanup events on the territory of urban and rural settlements of the Sovetsky District.

- The campaign "For clean yard" - cleaning and landscaping the territory of the municipal institution "Inter-settlement library of the Sovetsky District".

- Eco-volunteer cleanup event "Clean banks for Konda River" - cleanup the domestic waste from the recreation areas, located on the banks of the Konda River.

2. In order to increase the quality level of landscaping the Sovetsky District, to create the conditions for formation of active citizenship position, environmental and aesthetic education of the population through their active participation in the landscaping and gardening territory, it was performed the following types of work:

- Supplement of the arboretum plot with the "Victory Forest".

- Spring Arbor Days. Planting of Siberian cedar pines, rowan trees, acacias, birches, spruces was performed on the territory of kindergartens, "Luchik", "Rosinka", and "Berezka".

- Replenishment of cedar garden in Kartopsky district forestry.
- All-Russian Forest Planting Day. Planting of lilacs was performed on the territory of the settlement of Alyabevsky, replenishment of the Victory Park Spruce alley at the entrance to the settlement with new spruces.

5,656 people were involved in the environmental events, 2,934 of which were children, teenagers and young adults.

All events were carried out in the framework of the Action and widely covered by the local media. Some television program "Pulse of Time" went on the air, which showed the videos by the main events of the Action, the articles were published in the local newspaper "Pervaya Sovetskaya", the information as placed on the website of the Sovetsky District administration.

Despite of the changeable weather conditions, the difficult economic situation, workload of the school and college graduates, the XIV-th International Ecological Action "To Save and To Preserve" was conducted at the proper level with good performance.

Surgut City

Formation of ecological culture among the younger generation in a growing environmental crisis is an urgent task of modern education. It is well known that the process of environmental education should start from pre-school age, but at the same time the continuity of this process, it is the most important condition for formation and maintenance of ecological culture of society as a whole. In this connection, the municipal formation urban District city of Surgut traditionally scheduled events within the framework of the annual Action "To Save and To Preserve".

40 educational organizations with more than 45,000 pupils held thematic lessons on theme: "Preserve soil - Save life on the Earth!". During preparation to this event, the educational institutions held the contests of drawings "My Yugra - My Planet!", "Take care of the Earth!", "I am the Best Ecologist", quizzes for the title of the best connoisseur of environmental issues. Co-organizers of the thematic lessons were representatives of the municipal educational institution "Station of young naturalists", the Board for Use of Natural Resources and Environment, members of the city children's public movement "Young ecologists of Surgut".

In 2016, the events on sanitary cleanup and beautification of city territories were performed according to the Decree of the Surgut City Administration as of April 19, 2016 under No. 2937 "On conduction of the city-wide campaign "Clean City" in the period from April 25 to June 25, 2016".

More than 30 Saturday volunteer cleanup events were organized and conducted within two months due to joint efforts of labor activists and social collectives of organizations of all forms of ownership, territorial public self-governments, representatives of the City Administration, proactive and not indifferent residents. The public organizations, political parties, city youth associations, city Duma deputies actively participated in the campaign. In addition, the Saturday volunteer cleanup events were attended by large enterprises, such as "Surgutneftegas" OJSC, "Gazprom Transgaz Surgut" LLC, "Gazprom perersbotka" LLC, "Tyumenenergo" OJSC, "Tyumen Energy Retail Company" OJSC.

Thanks to the coordinated work of all participants, the following city public areas were tidied up: streets and avenues, parks and squares, adjacent territories, embankments, as well as

garden and cottage cooperatives. As a result, the action was attended by more than 12,000 people.

As a result of a citywide campaign "Clean City", it was cleaned 688 hectares of city areas and more than 2568 m³ of debris were removed.

It should be noted that such format of the Saturday volunteer cleanup event attracted more number of people to the environmental protection problems and, consequently, to tidy up a large area of the city.

The following saplings were planted in the city of Surgut as part of the All-Russian campaign "National Forest Planting Day" and the District-wide campaign "Arbor Days":

- Pupils of the secondary school No. 10 planted 10 bushes of lilac, 10 shadbushes, 10 bushes of Tartarian honeysuckle, 16 rowan trees;

- To prevent the damage of lawns along the roads, in May, it was performed works on creation of a hedge of willow bushes in the following areas: on the Mira street - 161 pcs, on the Boulevard Svobody - 206 pcs, on the 30 Let Pobedy street - 117 pcs, in a small park in the 30 Let Pobedy street - 150 pcs.

On May 23, 2016, the city campaign "Alley of Graduates - 2016" was held in the small park "Molodezhny". The campaign was organized by the Board for Use of Natural Resources and Environment in conjunction with the Department of Education of the City Administration in order to form a tree-planting tradition by graduates of educational institutions in the socially important facilities. During the campaign, it was planted chokeberry saplings in the amount of 20 pieces.

In 2016, the planting trees was attended by about 64 best graduates of the 32 secondary educational institutions of Surgut. It was the high achievers and record-setters in study, winners of the District-wide and All-Russian contests, active participants of social initiatives "Growing Together", "We are United by Victory", "Roads of War" and others, commanders of the military-patriotic associations, chairmen of the school self-government bodies, winners of school, municipal, regional and All-Russian contests, sports competitions.

The participants of the District-wide eco-volunteer teams became more than 600 students, teachers, and parents (legal representatives).

Every year, in the city of Surgut, on June 12, within the framework of the International Ecological Action "To Save and To Preserve" the Board for Use of Natural Resources and Environment of the Surgut City Administration organized an environmental event "Day of refusal of motor vehicles".

The large-scale environmental campaign took place in the bike ride format. The event was attended by a record number of biker and skaters, only about 600 people.

Participants of the bike ride traveled as a part of column on Lenin Avenue to the theater of Surgut State University, calling the residents to abandon vehicles, protecting the natural environment against the exhaust gases. The activists of city youth project "Volunteer of Surgut" participated in formation and coordination bike ride column. The Board for Use of Natural Resources and Environment of the City Administration organized distribution of T-shirts, caps and stickers with the logo of the Action.

The purpose of the event was achieved: the number of the bike ride participants increases every year, the whole families could be seen in the bike ride column! Through this example, the parents showed to children that there is not only a healthy lifestyle, it is a care of the environment!

During the period from March 30 to June 1, 2016, more than 40,000 representatives of municipal education system became the participants of the ecological marathon "My Yugra - My Planet".

May 23 – 26, it was conducted cognitive-game program "Our Home is the Earth!", during which the participants had an opportunity to see a fragment of the documentary movie "Birth of the Earth" and a number of other short environmentally-oriented films, as well as to participate in the entertaining master class on manufacture of miniature copies of the Earth planet using decoupage technique.

One of the stages of the annual marathon has become an intellectual contest "Eco-storm" among the pupils of grades 5-8. 108 pupils from 12 educational institutions have shown a decent knowledge in the field of ecology, biology, and environmental protection.

A permanent exhibition "Flora and fauna of Surgut region" is located on the territory of the Historical and Cultural Center "Old Surgut". The House of Nature presented a botanical collection of rare and Red Data Book plants. Here you can see the animal world, as well as the remains of a woolly rhinoceros, mammoth, ancient deer and wild horses. There are unique photos and videos on the colorful wildlife of our region made in wild conditions by the researchers of the Nature Reserve "Yugansky". The exposition is constantly updated and expanded; exhibitions of photographs took place in collaboration with educational institutions, public city organizations and artists.

Surgut District

656 events with the participation of 37,734 people were conducted on the district territory and dedicated to the Action.

The solemn opening ceremony of the Action in the district territory took place on May 16. The opening was carried out on the territory of historical and cultural center "Barsova Mountain" of the urban settlement Barsovo. The opening event was attended by representatives of the Surgut and Yugansk forestries, Surgut Board of the Federal Service for Supervision of Natural Resources of Yugra, the Council of Veterans of the Surgut District, Surgut City Administration and Duma, Barsovo Settlement Administration and Duma, Board for Social Security of Surgut City and Surgut District, historical and cultural center "Barsova Mountain", youth environmental associations, school and pre- school forestries, and urban and rural settlement of the district.

Greening events were held in all settlements of the District.

So, settlement of Bely Yar conducted 34 events on settlement landscaping, members of association "Young ecologist" and senior schoolers took an active part in the campaign "Alley of graduates", it was grown up around 7,000 roots of flower crops, which were planted on the

school grounds; the campaigns "Grow the seedlings", "Memory Lane", "Family Tree", "The best flower bed", "The Most Comfortable Courtyard" and others.

School forestries of the District held the events "The Native Land - the Gold Cradle", "Who cares of the soil, the soil reward triply", "Who cares of the soil, the soil feeds them", "There is no bad soil, there are bad farmers".

The All-Russian campaigns "Clean Banks", as well as campaigns "Clean Yard", "My Clean Home - Yugra", "Clean Forest" were performed on the territory of the District.

During the Saturday volunteer cleanup events, 943.27 hectares of the territory were cleaned and 2,156 m² of waste were transported to the landfill.

Volunteers carried out the cleanup of the banks of the Ob River, Trom-Agan River, Big Yugan River, Saygatinskaya Protoka and other water bodies in the District.

The settlement of Russkinskaya held the campaign "Clean Banks". It collected 12 m³ of household waste. It was conducted the contest of environmental leaflets and campaign "Batteries, Give Up!".

It was conducted excursion in the Museum of Man and Nature named after A.P. Yadroshnikov. The pupils of Russkinskaya school manufactured the birdhouses, which were installed on the trees in the Park Pobedy.

The settlements of the District carried out the Saturday volunteer cleanup events on cleaning the territory to the May 1, Victory Day, Children's Day under the slogan "We are for Clean Village", "Clean City - Green Planet", "Cleanup of the Victory", "Cleanliness and comfort live nearby".

The District schools held the environmental Saturday volunteer cleanup events "Clean Yard", "Clean Settlement", "Green Spring 2016". The school forestries cleaned the cedar gardens, green and recreation zones.

16,472 people participated in the events on cleaning and gardening the settlements of the District.

430 events of environmental education and enlightenment direction took place.

The District Administration conducted the children and youth creativity contest "Ecology through the eyes of children". The contest received 250 works (221 in the nomination "Picture" and 29 in the nomination "Photo"). The age of participants in three age groups ranged from 6 to 17 years old. Diplomas and memorable gifts awarded to the winners. All participants received a participant certificate and gift. The best works are presented in the exhibition in the building of the District Administration.

During April and May 2015, school forestries of the District held 18 lessons on forestry and forest inventory.

It was conducted the tours with elements of research work "Assessment of soil pollution", "Care of Forest. Role of Insects for Man and Nature", "Diversity of medicinal plants of the native land", "Who lives here?", "Birds are our friends", the excursions was attended by pupils of grades 5-6 (283 people), pupils of the kindergarten (960 people) (municipal educational institution "Lyaminskaya Secondary School", 8 pre-school educational institutions).

A major center of environmental education in the District is Yugansky State Nature Reserve. During the Action, the Nature Reserve held the Open Day, during which the visitors could get acquainted with the wildlife of the District.

Specialists of the regional public organization of hunters and fishermen of Khanty-Mansiysk Autonomous District - Yugra held an event to improve the conditions of waterfowl

nesting, they manufactured the installation of artificial nests (hollow nests), repaired and replaced the worn-out nests. 4,237 nests were installed. It was made an analysis of occupancy of artificial nests (hollow nests). 439 hollow nests were tested, 261 of which were occupied, i.e. 59.5%. This year, 237 hollow nests were manufactured and installed.

Trom-Agan settlement held the event "My Yugra - My Planet!" with participation of 25 people.

In the Action events was attended by over 19 thousand children, teenagers, students and young workers.

Pupils of Saygatinskaya Secondary School took part in the International Youth Ecological Forum "One Planet - One Future!". The certificates of participants were issued.

Master class on making Christmas toys for the Cool Christmas Tree of unconventional materials took place.

The environmental education campaigns and projects "Beautification of the school territory", "Cleanliness save the world", "Fight Vandalism", "World Earth Day".

Environmental quizzes "Do you know the Yugra land?", "Environmental traffic light", "We are the masters of our nature".

Environmental campaign "Water droplet is worth its weight in gold", "Clean Forest", "Clean Village", "Labor Teams", "Green Cinema", "Green April", "Let's do it together!".

Environmental flash mob: "Schooler! Fire is the enemy of our forests, be very careful", "Protect forest against fire" dedicated to the All-Russian environmental campaign "Protect forest against fire!".

Environmental lessons "Nature of our region", "World around us", "Rules of conduct in the forest", "Come into the forest with friend", "The Red Data Book of plants and animals of the Khanty-Mansiysk Autonomous District - Yugra".

Excursions with elements of the research work "Assessment of soil pollution", "Care of Forest. Role of Insects for Man and Nature", "Diversity of medicinal plants of the native land", "Who lives here?", "Birds are our friends".

Educational programs: "From the green world life", "Let's give the globe to the children", "Whence came the notebook", "Bird Trouble", "Green Chain", "In cooperation with the nature".

Exhibitions: "World of nature through the eyes of children", "Green Yugra - Healthy Planet", "Miracles of forest gifts", "Bird canteen", "Let's read the smart books and respect for the nature".

Contests of drawings: "Take care of the Earth, take care of ...", "Earth - our beautiful planet", "Ecology and we", contest of drawing on the asphalt.

Theatre performances, plays, game programs: "How to save the planet", "I grew up here and I love my native land" and "Ecological route".

The booklets "By reserved trails", cards "Feed the birds in winter", "Water is a life-giving source", "Earth Day", a monthly newspaper "The sun walks in a circle" were distributed in the settlement of the District.

The events were actively covered by the media.

Uray Town

Start the action is devoted to the "Spring Arbor Day" held on May 12. On this day, on the bank of Konda River in the area of "Victory Forest" planted in 2015 it was laid a park of 125 pines, called "Park of Childhood".

The Saturday volunteer cleanup event preceded the opening of the Action. During such Saturday volunteer cleanup event As part of the work day was removed

The bank area of Konda River and Kolosya River were cleaned from debris and willow and 26 cubic meters of garbage were transported to the city landfill. The dead trees were replaced in the "Victory Forest".

As part of the Action, the municipality was involved in national and District-wide events and events. Thus, in the framework of the "All-Russian Forest Planting Day" 198 flowering trees (lilac, bird cherry, apple, etc.) were planted in the territory of the municipality.

The bulk of the events of the Action took place in the city educational institution. Throughout the Action, the pupils of kindergartens, schools, the "Center for supplementary education", their parents and teachers took part in an environmentally-oriented events: intellectual games and contests, various environmental campaigns, master classes, thematic class hours, discussions, tours and exhibitions of drawings.

The event was held for the purpose to form ecological culture among the younger generation, to educate active life position in solving the environmental problems among the children and adolescents, to generalize the experience in environmental education of the educational institutions.

More than 50 graduates of educational institutions No. 4, No. 5 and No. 12 have taken part in the "Alley of graduates" and planted 10 saplings of birch, 19 saplings of bird cherry and 12 saplings of lilac.

Also the kindergartens and schools conducted the following events:

- Cognitive and game program "Alphabet of Yugra forest";
- Contest of presentations "Disappearing beauty";
- Club of the Funny and Inventive "Water of life";
- Campaign "Forest pharmacy";
- Campaign "City. Garden";
- Propaganda group "Save Yugra blue and green";
- Campaign "Protect the forest against fire";
- Marathon "Secrets of Yugra nature", etc.

Participation in the international, national, District-wide events:

Pupils of the children's school of arts took part in the international children's and youth contest of graphic works "Everything is blue, everything is green" in the city of Torun, Poland (20 works were sent) and in the international exhibition-contest "White Crow" city of Saratov (10 works were sent) - results will be announced in the 3rd quarter of 2016. Employees of the municipal institution "Youth Center" sent the applications to participate in the city contest "City of Flowers" and to participate in the District-wide contest "The most green and cozy courtyard".

The environmental education of the population is one of the events of cultural institutions and institutions for supplementary education in the field of culture.

Every year, in May and June, the staff conducted a variety of events within the framework of the Action.

In 2016, within the framework of the XIV-th International Ecological Action "To Save and To Preserve", the following events took place in the Museum of history of the Uray town:

- Environmental quiz "We are friends of nature!";
- Informative quiz "Rookery";
- Mobile photo exhibition "What a wonderful world".

"- On June 02 and 03, the Museum held 3 environmental quizzes "We are friends of nature!", and, on June 07, 2 cognitive quizzes "Rookery", which participants were the pupils town the summer camp "Planet of Childhood".

At the beginning of the environmental quiz "We are friends of nature" the anchorperson and children talked about the IEA "To Save and To Preserve", about meaning of these words, and about what should make each of us in order to save and to preserve our nature, animals, birds, insects inhabiting the Earth. And the children discussed the ecological situation of our region, because about 60% of oil in Russia are produced in our District, in this connection, the fragile northern nature has vastly overload. Next, the children were offered to divide into teams and to carry out the tasks and come up the name of the team.

Teams were offered to answer the environmental blitz-questions, play a game "Environmental traffic light", to solve correctly the environmental situation and to recall the rules of conduct in the forest. At the end of the quiz, the team players with the greater number of tokens received small prizes.

During the cognitive quiz "Rookery", the children could show their knowledge about the birds of our District, answering the questions, learn and identify the voices of birds, talk about the importance of each person's actions in the preservation of our planet. In a playful manner the guys are not only remembered their knowledge about the nature of the region, but also received the new one.

These events visited 91 people, including 86 children.

The cultural events for children taking place in the museum bring the respect for the natural environment, the diversity of its life forms; cultivate the ecological morality among the younger generation. The ultimate goal of the environmentally-oriented events is to create conditions for the development of the valuable relation to the nature and its resources and conscious respect for the natural obtained resources among children.

Also, during the Action, the Museum performed the mobile exhibition "What a Wonderful World", which was held in the cultural center "Youth of Shaim" from May 14 to May 20. The exhibition presents 12 works of the Uray artist G.L. Vysochkina.

Works made with oil pains on cardboard. The painting depicts the nature of the North End.

Each of the works reveals in its own way the world of nature, which is full of harmony, life and creation.

806 people, including 400 children visited the exhibition in May.

Environmental education of children and adults is an urgent problem of the present time: only environmentally-oriented outlook, ecological culture of living people can bring the Earth from the disastrous state, in which it remains today. Therefore, the museum employees take part in the environmental education of the population, conducting annual exhibitions and various cultural events.

As a result of the Action - from May 12 to June 07, the Uray Museum conducted 6 events (1 exhibition and 5 cultural events), which were attended by 897 people, including 486 children.

In total, the Action included 105 environmental protection and environmental education events.

The main part of events focused on children and adolescents, because the propaganda of ecological culture, education of respect for nature, formation of outlook of children and adolescents in accordance with the principles of respect for the natural resources - these are the main objectives of the Action "To Save and To Preserve".

During the Action, the municipality's territory was landscaped with 410 trees, 60 bushes and about 92,000 flowers. The area of greened space amounted to more than 37 hectares.

Total, the XIV-th International Ecological Action "To Save and To Preserve" was attended by 4091 people, 3,130 of which were children, teenagers, students and working youth.

Khanty-Mansiysk City

Each year, educational institutions of Khanty-Mansiysk city are actively involved in the events within the framework of International Ecological Action "To Save and To Preserve". Also during the year, each secondary and pre-school educational institutions of the city performs the events to raise environmentally conscious and conscious citizens.

In 2016, total coverage of the event participants was 6,510 people, 5,727 of which are children, teenagers and young adults.

The large scale city event covering all the educational space of the city is the Annual City Decade "Spring and birds" held within the framework of the International Ecological Action. There are environmental education events and creative contests during 10 days. The creative contests on environmental issues and the campaign "Welcome the birds" were designated for the younger children and the contest-conference of research works and intellectual game "Feathered connoisseurs" were performed for the senior schoolers. In 2016, the decade events were attended more than 500 children and about 1,000 local people.

The city schoolers are the participants and winners of the regional contest of environmental leaflets "Let's Preserve the Nature and Culture of the Peoples of Yugra", which is held for the purpose to cultivate the ecological culture among the students and schoolers in the process of artistic creation. In 2016, the contest was attended by 82 pupils, 31 of which became the winners of the municipal stage, and 5 pupils became the winners of the regional stage.

District-wide environmental marathon "My Yugra-My Planet" united in its events over 1,000 pupils and residents. Scientific and practical conference for young naturalists "I want to know everything!", city contest of propaganda teams "Eco- Objective", the V-th city contest of clothes for animals "Shaggy Chic" are environmentally-oriented events.

The Saturday volunteer cleanup events and campaigns on cleanup forests and parks, as well as greening the school grounds are an integral part of the environmental work in the city. In the spring of 2016, schoolchildren planted about 24,000 plants, namely flowers, bushes, trees. Basically, it's a rowan trees, lilacs, cedars, Astilbe. The main part of planting was carried out within the framework of the District-wide campaign "Alley of graduates".

The All-Russian environmental Saturday volunteer cleanup event "Green Spring - 2016" and District-wide event "My Clean Home - Yugra" was attended by the children, adolescents, young people and parents to perform garbage collection. It was performed more than 40 runs for

cleaning the surrounding territories of educational institutions, as well as in parks and green alleys.

2,005 people, 1,589 of which were pupils of city kindergartens and schools, actively participated in the planting trees and tidying up the allocated territories.

May 12-16, for the 8th time, the Khanty-Mansiysk city hosted the participants of the International Youth Ecological Forum "One Planet - One Future". This year, forum took place at the hotel complex "Yugra Valley". It was attended by 124 people from near and far abroad (Slovenia, Finland, Bulgaria, Moldova, Kazakhstan, Armenia, Belarus), from various Russian subjects (Sakha Republic, Voronezh Oblast, Sverdlovsk Oblast, Moscow, Tomsk, Omsk, Krasnodar), the municipalities of the Khanty-Mansiysk Autonomous District - Yugra also participated in the forum. Aysatova Alisa, Ruslan Usmanov, Aleksandr Denisov Pupils of grade 10 of the educational institution Secondary School No. 2. defended the honor of the city and during four days they actively participated in the contest, cultural and leisure, excursion, game, sports and creative events.

June 1 – 5, Khanty-Mansiysk city hosted the XX-th International Ecological TV Festival "To Save and To Preserve". At the end of the contest, the schoolers of the educational institution Secondary School No. 2 received Diplomas of the XX-th International Ecological TV Festival "To Save and To Preserve". The winner in the age category of 10-14 years old became the Authors' Team of the Creative Department of the Children's School of Arts and Crafts in Khanty-Mansiysk city for the cartoon "Green Fairy Tale" (project manager - Alfira Pisarenko). Laureate Diploma was awarded to Elizaveta Miller (TV and Radio Company "Yugra", Khanty-Mansiysk city) for the movie "Protect the environment".

Within the framework of the international campaign "March for Parks - 2016" for the first time the pupils of the municipal budget institution "Station of young naturalists" took part in the Interregional youth scientific - practical conference "Live Earth is a Living Soul", which was held from May 30 to June 1, 2016 in Sovetsky town based on the District-level Natural Park "Kondinskiye Lakes". The young naturalists introduced the 6 scientific - research papers to defense, four of which were invited to full-time participation. The Bolshakova's work awarded the Winner Diploma.

The All-Russia contest of youth research works named after V.I. Vernadsky took place in April. The main task of the contest is a creative development of young researchers. Kalimullina Alisa and Reblan Mariya, the pupils of the station for young naturalists of Khanty-Mansiysk city, were invited to participate in the second round of Vernadsky Readings. The participation resulted in 2 First Class Diplomas.

XXIV-th city open ecological conference of senior schoolers is dedicated to the 85th anniversary of the Khanty-Mansiysk Autonomous District – Yugra and is carried out within the framework of the Action "To Save and To Preserve". The event was held in the form of conference for senior schoolers of the city educational institutions. This year, the conference was declared as open one, that's why, the pupils from Nefteyugansk city and Gornopravdinsk settlement participate in it.

The major innovation of this year was holding of the training workshop "Modern methods and means of school environmental research in the natural environment", where the issues of organizing and conducting educational and research work of pupils were considered in the form of free discussion, modern methods of instrumental physical and chemical monitoring the environment quality were demonstrated and practically tested, methods of biological analysis

of terrestrial and aquatic ecosystems, methods for describing the structure of biotic communities, statistical analysis of environmental data and building the pollution maps were presented. The conference was attended by over 70 people, including senior schoolers and teachers.

On April 15, the International Ecological Knowledge Day, it was stated the Regional Environmental Watch in Yugra.

The Khanty-Mansiysk city schools and kindergartens held this day events for children - open lessons on theme "Teach the Adult Love the Nature", extracurricular lessons "Commoner says ..." (Barry Commoner - a famous American environmentalist popularized the doctrine of the environment preservation). Such lessons were attended by over 1,500 children of the city.

For many years, participation in environmentally-oriented contests, actions, conferences helps children and adults to be creative, to show professionalism and civil position in addressing the conservation and enhancement of the unique natural resources of the Khanty-Mansiysk Autonomous District - Yugra. The environmental protection measures in the territory of our municipal formation is not limited to a rigid timetable of the Action "To Save and To Preserve", and carried out all year round.

Khanty-Mansiysk District

In the framework of the XIV-th International Ecological Action "To Save and To Preserve", the pupils of educational institutions of the District participated in numerous contests of drawings, photographs, handicrafts made of natural material, environmentally-oriented exhibitions and performances, theatrical performances, quizzes, concerts, game programs. Each year, pupils and teachers participate in the All-Russian Scientific-Practical Conference "Environmental education and enlightenment for sustainable development" with preparation of reports and presentations by the teachers of institutions for supplementary educational town theme of environmental education, enlightenment and awareness.

On May 26, 2016, the general educational institutions of the Khanty-Mansiysk District held a solemn opening ceremony of the XIV-th International Ecological Action "To Save and To Preserve", which was attended by 1,834 students.

The 23 educational institutions of the Khanty-Mansiysk District held a common lesson "Preserve soil - Save life on the Earth!". At preparation and performance of events, it was used the resources of institutions of culture (libraries, museums). It was used the methodical guidelines to assist in preparation and performance of events. Some presentation materials were used during the lesson. The lesson was conducted in various forms - discussions, games, surveys, quizzes, etc. The lesson was attended by pupils of grade 1-11 in the amount of 1,968 people.

Students of educational institutions of the Khanty-Mansiysk District took part in the following contests / campaigns:

Environmental marathon "My Yugra - My Planet!". The environmental marathon took place in the educational institutions of the Khanty-Mansiysk District in order to form ecological culture among the younger generation of the Khanty Mansiysk District - Yugra. Various events were carried out in the framework of the environmental marathon. The marathon was attended by pupils of general educational institutions and pupils of educational institutions for supplementary education in the amount of 968 people.

The campaign "Alley of Graduates". The campaign was attended by graduates of grade 9 - 192 persons, graduates of grade 11 - 96 people. The number of trees planted – 288 pcs.

Environmental schooler cleanup event. Pupils of 23 general educational institutions participated in the labor days: Saturday volunteer cleanup events on cleaning the territories of rural settlements, ecological trails; bank line areas, school territories (garbage collection, whitewash the trunks of trees, planting trees, bushes, flowers, spruces) . Attendance of pupils – 1,897 people.

All-Russian Forest Planting Day. 922 pupils of the general educational institutions of the District took part in the planting the young saplings. In order to raise awareness of the younger generation to environmental issues, education of careful attitude to nature, the organizations of the Khanty-Mansiysk District held the district environmental campaigns: "Batteries, Give Up!" "The Second Life of Waste Paper".

Pupils of grade 2-9 of the general educational institutions took part in two environmental classes held by the Interregional Environmental public institution EKA within the framework of the II-nd All-Russian Educational Project "Mobile Technology for Environment" at the initiative of the All-Russian Green Movement ECA.

The pupils actively participated in the Environmental Watch events. Coverage of pupils was 100%. The planned events were also attended by pupils of pre-school institutions of the Khanty-Mansiysk District.

Yugorsk Town

Within the framework of the XIV-th International Ecological Action "To Save and To Preserve", 449 environmental education and environmental protection events with a total of 20,049 people were held in the town of Yugorsk.

Opening ceremony of the Action was held in the auditorium of the municipal budgetary general education institution "Secondary School No. 5".

The ceremony of awarding prizes to the winners of the District-wide contest "My Yugra - My Planet!" took place on the day of the Action opening.

Active participants of the youth center "Helios" within the framework of the international campaigns "March for Parks", in order to preserve the soil from pollution and littering, careful attitude to it, the leaflets about waste paper and plastic collection and memos on how to keep the town clean were distributed between the participants. Within the campaign, youth center "Helios" held a town selfie contest "Clean City", the most important of which was the condition for selfie- photo before and selfie-photo after cleaning (landscaping) the area.

In order to attract public attention to environmental issues, it was organized a traditional junk material contest among the students of educational institutions. The participants of contest demonstrated their creativity and aesthetic taste. The costumes were made of plastic bags, plastic bottles, foil, tape, paper and other junk material.

On the opening day of the Action, the educational institutions of Yugorsk town held common lessons and events on the theme "Preserve soil - Save life on the Earth!". In total, the Action included 39 events (lessons - presentations, drawing contests, environmental games, landscaping), which was attended by 1,217 people.

The educational institutions conducted the lessons "Keepers of water" in the form of game-contest between senior schoolers, an exhibition of creative works "Earth Day", as well as production of leaflets "Protect the planet - it's your home!" took place.

The contest "Protect the environment!" took place among the pupils of grades 1-4. An exhibition of creative works "I and the world around me" organized for the pupils of grades 1-9.

The kindergarten conducted the poster contest "Protecting forests against fire", which was attended by 490 people. Contests of handicrafts from junk material "Second Life of unnecessary things" and the contest of environmental photography were successfully conducted.

Teachers of preschool groups of the educational institution "Gymnasium" organized a contest of design projects "Eco-town", which participants were children of middle and senior school age. An interactive game "Saving the planet Earth" took place.

The Central Town Library conducted an active work on environmental education using both traditional and innovative forms of work, organized interesting public events: exhibitions, festivals, presentations, contests. A game "Live Earth!" was devoted to the Day of environmental education within the framework of the Action "To Save and To Preserve". The game was carried out with the regard of the announced Nature Reserve Year in 2017 in the Russian Federation in connection with anniversary of the first country's National Nature Reserve (Barguzinsky).

On the International Day of Biological Diversity (flora and fauna of the Earth), the central town library with the participation of members of the club "Academy of Success" conducted the event "Save the tree, river, flower, garden!". The event aimed at landscaping the library alley and planting the flowers.

Within the framework of the Action "To Save and To Preserve", municipal institution "Museum of History and Ethnography" organized the traditional children's festival of indigenous peoples "Vurschih-Hatle - Wagtail Day" in the Yugorsk town park. The performances of pupils of kindergartens of the Yugorsk town were the decoration of the concert. They are with all the immediacy, openness and sincerity read the poems and danced. The members of the theater studio "Surprise" showed the story in Khanty language "Wagtail Bird".

The municipal institution "Museum of History and Ethnography" created a natural block for fishing on the Ess River in the open-air museum "Suevatpaul".

This exposition object was created for environmental education events. Based on this example, it reveals respect for the nature of the indigenous population of our region.

The Children and Youth Center "Prometheus" organized the following events for senior schoolers: district contest of souvenirs, handicrafts and leaflets for the campaign "March for Parks".

Within the framework of the XIV-th International Ecological Action "To Save and To Preserve", greening of the town of Yugorsk performed by the following institutions and companies: "Customer Service" JSC, municipal institution "Town Forestry", institution "Ecologist".

During the campaign, 223,000 pieces of flower seedlings were planted. Area of green territory was 26.2 hectares.

As part of the campaign "All-Russian Forest Planting Day" under the auspices of the "Victory Forest", the Town Mayor determined the most active participants of the "Victory Forest -2015" and presented letters of appreciation. A waltz performed by the Lyceum graduates was a gift to the participants of the event.

Junior and senior schoolers and employees of the Department for Youth Initiatives of "Gazpromtransgaz Yugorsk" LLC planted 71 trees (birches and pines) in the streets and courtyards of the town. During the campaign, the senior schoolers performed landscaping "Alley of the dead pilots" of the military unit Yugorsk-2.

In the town of Yugorsk within the framework of the Action "To Save and To Preserve", it was held the campaign "Arbor Days" and event "Alley of graduates!". Organizations and individual entrepreneurs, schools and kindergartens, as well as guests and residents of the town were involved into the planting trees.
